

DRAWING FACE PROPORTIONS

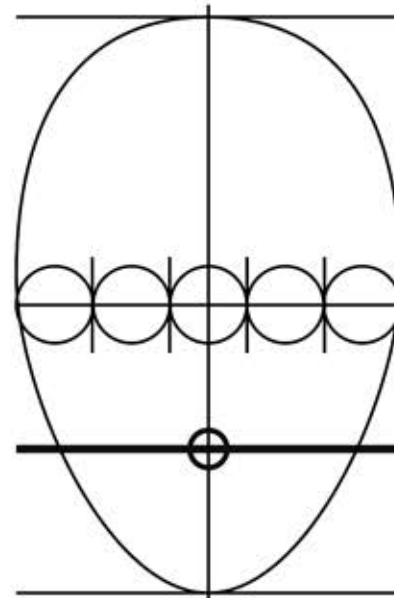

① Draw an egg shape.

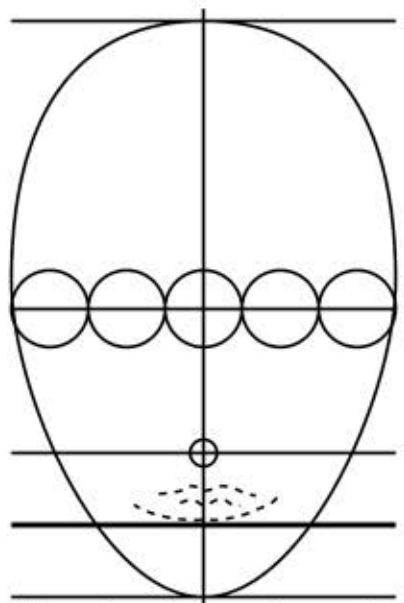

② Divide the shape in half, horizontally and vertically.

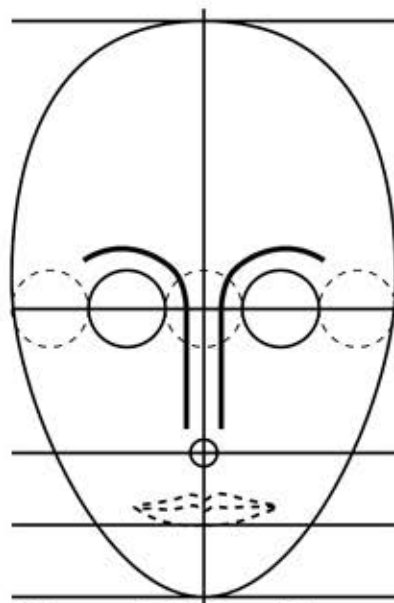

③ Divide the horizontal line into 5 equal circles for the eyes.

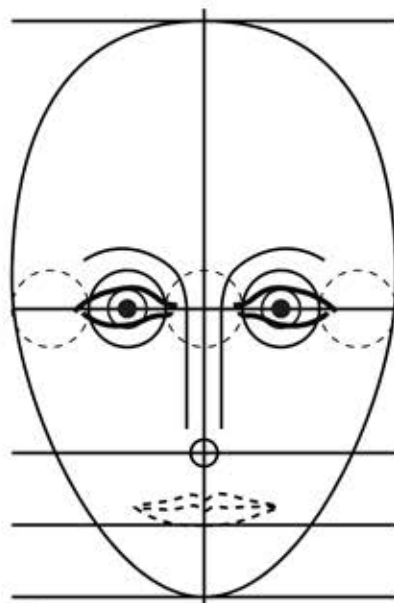

④ Divide the the bottom in half again to find the tip of the nose.

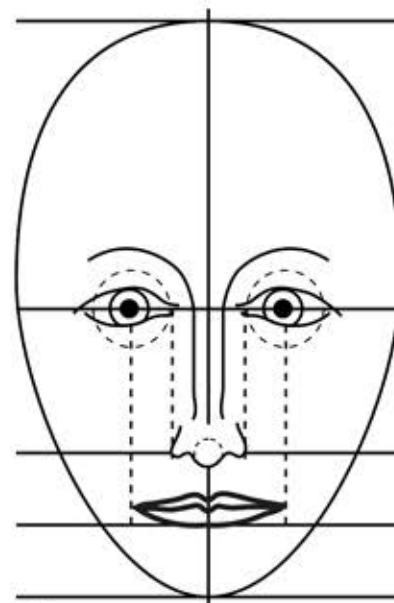

⑤ Midway between the tip of the nose and chin: line under the mouth.

⑥ Draw the bridge of the nose (2 lines) continuing up to make the curves of the eyebrows.

⑦ Draw the eye lids and pupils.

⑧ Draw the mouth as wide as the middles of the eyes. Draw the nostrils to where the eyes start.
